Revel Systems Overview

Revel powers the ambitions of more than 20,000 restaurant and retail locations with a robust, cloud-based point of sale (POS) and business management system. Our streamlined ecosystem helps customers seize their future by pairing an intuitive POS with powerful management tools on a single platform.

The Revel Difference

Revel's iPad-based POS streamlines and enhances critical business operations from end-to-end. Our platform simplifies transactions for employees and customers, ensuring quick training for staff, efficient ordering for customers, and moving lines at your registers.

With our open API, Revel customers can easily integrate best of breed solutions, such as delivery management, loyalty programs, online ordering, and more.

We are committed to our customers' success, and we partner with our clients during the implementation process, which is designed for customers to achieve rapid operational improvements:

- Using insights gained from Revel POS, the Octopus Group achieved an 8.8% labor cost savings, a 2% food cost savings, and a 17% increase in sales year over year.

- LemonShark Poke achieved a 3.4% increase in customer frequency four weeks after launching the Revel and Como loyalty solution.

- Over The Top Cake Supplies increased average sales by 31% through the use of segmented campaigns after implementing the Revel and Como loyalty solution.

> "Revel was very easy to set up, it is very easy to manage and the backend functionality is just incredible."
>
> —Rohit Roopchand, Director, Fat Prince

> "They have been highly responsive and very open to collaboration, so much so that I'm looking forward to sitting down with them and brainstorming on how we architect our guest experience moving forward."
>
> — Joe Guith, President, McAlister's Deli
