

Provide a Top-Notch Pizza Night

Perfect Your Dine In, Take Out, and Delivery

No matter how your customers prefer their pizzas, Revel's Pizza POS is designed to optimize your operations, ensure a seamless experience for your customers, and deliver the necessary insights to maximize your returns.

Send Deliveries Out Faster, So Food Arrives Hot

Set service boundaries and automatically optimize the route with Revel's Delivery Management. No delivery driver? Hail UberRUSH and Postmates right from the KDS.*

Make Ordering Quick and Easy for Every Customer

Give customers the option to call in or place online or mobile orders. Easily reference order history to expedite the process and have it integrated right into the POS.

Track Ingredient-Level Inventory and Never Miss a Sale

Identify what's selling with Intelligent Reporting, even when your customers like their pizza half and half. Set low stock alerts so that you're ready to handle the rush.

“Revel gives us real-time access to analytical data that helps us make smarter decisions every day.”

- Andrew Gamm, Executive Vice President, Pizza Patrón

Whether you're running a counter-service and delivery operation or a family-style pizza parlor, Revel Pizza POS gives you the tools you need to wow your customers and grow your business.
